WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Half the Common Aches and Pains of Barre People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking down. Overwork, strains, cold, and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency toward diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help. Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Barre cures are the proof.

Mrs. Margaret Reid of 40 Maple avenue, Barre, Vt., says: "For more than three years I was bothered off and on with a severe backache. At night I would suffer so that I could not sleep and arose mornings feeling tired and unrefreshed. During damp weather I was always worse and although I wore plasters I obtained only temporary relief. Doan's Kidney Pills were recommended to me and I went to E. A. Drown's drug store for a box. They seemed to help me after I had taken only a few doses. I continued using the remedy until the pains in my back were relieved and I could rest better nights. My health was benefited in other ways, and I am glad to recommend Doan's Kidney Pills whenever occasion arises."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

SIRENS AND SONS.

Prince Ferdinand of Bulgaria has, it is said, decided to visit New York this winter.

The governor of Hongkong, Sir Matthew Nathan, is the only member of the Hebrew faith in important office in Great Britain's colonies.

Hoke Smith, the new governor of Georgia, had the finest saddle horse in Washington when he was secretary of the interior, and he still rides every day.

William E. Sanderson, the new Republican mayor of Springfield, Mass., is a "boss" in the yards of the Wason company, car manufacturers, and has worked for day wages all his life.

For the roll call the names of Massachusetts' junior senator is now printed Winthrop M. Crane instead of W. Murray Crane, as formerly. Philander Chase Knott uses his full name, but most of the senators follow the old custom of abbreviation.

Samuel G. Ward, formerly a Boston banker and Ralph Waldo Emerson's most intimate friend, is still living in Washington. He is one of two survivors of the Harvard class of 1836 and is one of three survivors of the Boston Latin school class of 1827.

John Cripps Wickliff Beckham of Kentucky at the age of thirty-seven is the youngest senator elect in the United States and the youngest governor in the country, though at the same time he is the oldest governor in the point of service, having served Kentucky in that capacity for seven years.

Congressman J. Adam Bede of Minnesota was chatting with a friend and incidentally mentioned that last summer he had visited Ithaca and some other towns in Michigan. "What were you doing there?" asked his friend. "Keeping the people from moving away. They said if I'd come up and entertain 'em they'd stay. They gave me my price, and I understand the town is still there."

A Modern Miracle.

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn. "she was so wasted by coughing up pus from her lungs. Doctors declared her end so near that her family had watched by her bedside forty-eight hours, when at my urgent request Dr. King's New Discovery was given her, with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." Guaranteed cure for coughs and colds. 50c and \$1.00 at Red Cross Pharmacy. Trial bottle free.

SMOKEHOUSE.

Inexpensive and Efficient Device For Curing Meat.

A device inexpensive but effective for smoking meat is shown in the cuts described by a writer in New England Homestead.

Fig. 1 shows four stakes driven into the ground, with cross boards nailed across, as suggested. The whole is then covered with the heaviest red, resin sized building paper, this being held in

place by laths nailed along the edges, as shown in Fig. 2. An opening is left at the bottom of one side, under which a flat iron kettle filled with smoldering fire can be slipped.

Higher up on this side a movable board is closely fitted, as shown in Fig. 2. Through this space the meat can be hung on the nails on the crosspiece shown in Fig. 1, and its condition can be examined from time to time.

This smoke room can be made as large as one may need, but for most purposes seven feet high and three feet wide and deep will doubtless be found

sufficient. If it is to be wider than the width of the building paper other stakes must be driven so that there may be support to which the edges of the paper may be tacked.

Frozen Comb.

One of the dangers that confront the poultryman during winter is freezing of the combs and wattles of fowls. This is known as "frozen comb" and it causes extreme suffering to any bird that may be afflicted. Fowls with large combs and wattles are the chief victims, as such portions of the head offer large surfaces for exposure to cold winds. Fowls with pea combs or small rose combs are more exempt than those with large single combs, according to Farm and Fireside.

The principal cause is due to getting the combs and wattles wet, especially when drinking, and then being suddenly exposed to cold winds at a temperature below the freezing point. To prevent the difficulty as far as possible the birds must not be allowed to drink in such a manner as to get their wattles wet. The aperture for drinking should be large enough to admit the bill only. Should the wattles become frozen the birds will be rendered useless until the injured members become healed. If the hens refuse to lay after cold weather sets in first look for frozen combs and wattles, a difficulty often present, but not noticed. As a remedy, anoint the comb and wattles once a day with vasoline, keeping the birds in a warm location, with straw on the floor instead of a roost at night.

Conditions and surroundings largely affect the combs of fowls. Warm quarters in winter to protect the fowls against the cold and a variety of food that it may lay eggs in winter will assist in protecting against disease.

Mulching Strawberries.

Let us consider for a moment the advantages of mulching, for there are few things of greater importance entering into strawberry production than this. Its principal object during win-
